

The Taurac logo is positioned in the top left corner. It features the brand name 'Taurac' in a bold, red, sans-serif font. To the right of the text is a stylized white bull's head profile, facing right. The background of the entire page is a photograph of a modern office interior. A person is seated at a desk in the center, working on a computer. The office has large windows with blinds, and a prominent gold-colored floor lamp is visible on the right. The bottom half of the image is overlaid with a large red graphic that contains the main title and website information.

Taurac Lighting

MOVE Concept

An installer will realize quickly, safely and efficiently high-quality lighting projects using Taurac products. Taurac applies these values to our products through our [MOVE concept](#).

MOVE - Match guaranteed

A guaranteed match during our selection process

With in maximum 5 steps we guide our customers to the desired product.

MOVE - Oriented in solutions

Solution oriented by providing the correct information

Our team of specialists is ready to inform you with the information you need to get your job done quickly and efficiently.

MOVE - Values in safety and efficiency

Realise the best result by using A-quality products

Taurac does not only use A-quality components, also the construction method and flexibility is from A-quality.

MOVE - Easy installation

Taurac products are naturally simple to install

Taurac's Click & Go system is implemented in all our products. This ensures easy installation and saves your valuable time and energy.

Taurac Lighting

Sectors

Offices

Taurac luminaires have been developed to meet the contemporary demands of a user. The lighting offers flexibility, durability and a healthy working atmosphere in an office space.

Industry

Lighting plays an essential role in the production and storage of goods in an industrial environment. A fixture that has the right light intensity, color and beam angle will provide many benefits.

Healthcare & Welfare

Health care institutions require the highest standards in terms of building safety and its design. Lighting is essential and adds a huge contribution to meet these standards.

Education

Sustainability, flexibility and a safe and stable environment are core requirements. To avoid concentration problems, students should have no distraction of light. A low UGR value and flicker free is mandatory.

Retail

An attractive store invites customer easier to enter inside. Correct shop lighting is decisive and allows you to create an atmosphere that appeals and inspires your customer.

Residential complexes & apartments

Taurac has various fixtures available with pleasant lighting, especially for stairwells and corridors. Residents will feel at ease and can move around safely.

Taurac Lighting Services

Specialized experts

There are major differences in luminaires in the world of lighting. Which luminaire fits the best in your business situation? It depends strongly on the application where the luminaire will be used. What goal do you want to achieve?

Together with our dealers we can guide you in choosing the right luminaires to create the optimum situation for your project.

Our team of experts are specialists with years of experience in the field of lighting. We believe in the total package to come to the best solution together.

Taurac Lighting Services

Lighting Plan

Creating a professional lighting plan for a business space gives you insight into the opportunities that lighting can offer. Light has a major impact on the performance of people.

Light has a great effect on productivity, mood and working atmosphere. For this reason, creating a professional lighting plan is important. Not only for your business premises but also for your people.

At Taurac we recognize the importance of the interior and the placement of light. For executing our customized design we use the well-known major software brands. We understand what differences a professional plan can do for you.

Taurac Lighting

The power of Taurus

The meaning behind Taurac is derived from Taurus. Taurus is Latin for "bull" and refers to one of the constellations of the zodiac. This powerful and reliable animal is reflected in our core values, logo and beautiful products.

Taurac Lighting

Taurac dealers

Taurac is committed in helping the customer as good as possible in any situation. Therefore we have chosen to supply our products through our dealer Raca Group BV.

Currently Raca is our only dealer for the BeNeLux. Our aim is to find more dealers to increase our distribution network.

RACA has many years of experience and skilled employees. By user-friendly LED products they offer solutions where we can solve all inquiries from tomorrow.

RACA is a specialist in supplying light technical products and batteries for several kind of purposes. For more information:

www.raca.nl

Facts of light **LED lighting**

LED stands for “Light-Emitting Diode.”

LED are energy efficient and
have a long lifespan

**LEDs contain no mercury
and at least 95 percent of
an LED is recyclable**

**If you install an LED light in your
baby’s room now, it will still be there
by the time he is a grown up**

A common light bulb will eat
electricity but only converts 10% of
that electricity into light

Over the next 20 years the adoption of
LEDs in residential and commercial
applications will save about \$265 billion

Facts of light LED lighting

Switch to an LED bulb in the porch light and you'll notice considerably fewer bugs.

A LED is an electronic device that emits light when an electrical current is passed through it.

LEDs are not subject to serious damage from external shock

LED lights have a healing effect

If the entire US would replace 50% of the existing Christmas lights, the potential energy cost savings starts around \$17.2 billion dollars

If you use your LED bulb for 24 hours a day, every day, that bulb is rated to last 6 years
